The News.

"Flora Temple," as is usual, was the floetest in the contest with "Princess" at the St. Louis Fair, yesterday. The thousand-dollar purce was added to the "Flora Temple" treasury. Our amusement column indicates when the trio of trotting horses will be in Cincinnati. If not a sell, there is news of the safety of

the balloonist La MOUNTAIN. The steamship Canada, now due, has not

yet been announced as arrived. Postmaster General Hour has resumed his duties at Washington City, after his visit to

Kentucky; Gas has been made from water at Wilmington, Delaware, recently, by the process Dr. MILT. SAUNDERS, formerly of this city, and many of our citizens patented a few years ago. We are not gassing about this, but fear water will be so valuable that whisky will become the chespest drink.

General Convention of the Episcopal Church of the United States.

The triennial Convention of the Episcopal Church of the United States assembles today in Richmond, Va. Important matters will occupy the attention of the Convention. A revisal of the general canons of the church will be made after a lengthy discussion. The House of Bishops, who have a life tenure, will have under consideration the application of the Convention of New York for remission of the unlimited suspension of Bishop Onderdonk. His case can not come before the House of Deputies, as a Bishop can not be tried except by his peers. The result will no doubt be that two Dioceses will be created in New York, and Bishop Onderdonk will be allotted to the city, and Bishop Potter to the country.

The Convention will consider the proposed plan of Diocesan Judicatures and other revisions of the criminal code of the church. The session will be protracted over a month. Several Canadian bishops will be in attendance. Dr. Bedell, Assistant Bishop of Ohio, with three other bishops, will be consecrated. The clerical deputies from Ohio are as follows:

Rev. Erastus Burr, of Portsmouth; Rev. W. R. Nicholson, Cincinnati ; Rev. R. B. Claxton, Cleveland; Rev. Chauncy W. Fitch, Piqua.

The lay delegates are Messrs. John W. Andraws, Columbus; Charles B. Goddard, Zanesville ; Nat. G. Pendleton, Cincinnati ; and Kent Jarvis, Massillon.

The facilities of reduced fare will, no doubt, induce many persons to attend the Convention during the exciting session.

Charges Against Councilmen.

Honor is not to be sported with. Rumors are current of charges of bribery, in reference to some designated members of Council, which should be at once investigated by the Honorable body, of which the reputed offending persons are members. A man's honesty, it is said, is the only commodity whose true value is exactly the price at which the owner rates it. We should like to know at what tariff County, Mo. members of the City Council, if any of them, part with the article-rate their honor. We are not of those who delight in distinguishing great characters by their faults alone, or in tracing an eagle's flight only by its earthly shadow-that's a groveling taste; but it is due to the public to have calumny silenced, for the bold monster fears not to wound the fame of princes, if it find but only blemish to work on.

The Great Cricket Matches.

We have on file, subject to the examination of any of our readers, a circumstancial record in the Montreal Gazette, of the great ericket match in Canada, and of the happy speeches made at the banquet given by the Montreal Club to "The Eleven of England." The details of the play are interesting, but too extended for our columns. In our telegraphic columns we have a report of what the "All England Eleven" did yesterday at Hoboken with the New York cricketers. We do not despair having them out West, to bowl and bat on the Union Grounds, Cincinnati, with the choicest cricketers this side of the mountains.

Scientific Research.

The rapid race in the line of bogus examinations into phenomena of nature, by certain quack naturalists, is illustrated in a story told of a parapatetic philosopher who made a tour of observation down the Ohio river, many years ago. It is reported that he traveled from Wheeling, Virginia, to Henderson, Kentucky, in a skiff, as fast as two men could row him. During that journey he discovered from one hundred to two hundred new species of fishes. The oldest inhabitants of Cincinnati had, at that time, not seen more than thirty.

The Flying Artillery.

This is a nosiy and dangerous adjunct to "stump speaking." No doubt, point blank shots are made by them in convincing sceptical politicians, and assuring them how to vote, but sick people and persons whose horses are scared by the cannonading, are opposed to all such instrumentalities. Let the practice be discouraged by the people and the politic ans won't continue it.

Steamboat Sunk.

The steamboat Mary Cook was sunk in seven feet water, at the foot of Raccoon Island, eight miles below Galliapolis, during a fog, about nine o'clock night before last. Her cargo, being chiefly flour, is very badly damaged, and may prove a total loss. The boat was the property of Captain Campbell and Benjamin Carson, and was valued at \$6,000. We were unable to learn anything of the amount insured, If any.

Murder at Carrollton, Kentucky.

A bloody affray occurred at Carrollton, Kentacky, yesterday, in which a man named Browing stabbed one named Morton six times with a boule knife, killing him on the spot. The parties had long been at variance, and happening to meet on the street, a rencounter, with the narrated result, was the consequence:

REPORTED FOR THE PENNY PRESS.

The Cricket Match at Hoboken. NEW YORK, October 3. The cricket match between the eleven of all England and twenty-two of the United States commenced this morning at Hoboken, the United States players being at the wickets. The weather was all that could be wished, and the ground was in carried order. It is estimated the ground was in capital order. It is estimated that from six to seven thousand persons

were on the ground.

The following is the score:
The twenty-two of the United States, first inings—J. Lank, b. Parr, 6; R. Walker, (run out,) 0; H. Sharp, c. L. Lockyer, b. Jackson, 1; W. Hammar, c. Haywood, b. Parr, 6; A. H. Gibbes, b. Jackson, 0; J. W. S. Carlette, l. b. w. b. Parr, 4; A. Mansh, l. b. w. b. Jackson, 0; W. Wilby, b. Parr, 3; H. H. Wright, c. Lockyer, b. Parr, 1; J. Higham, b. Jackson, 1; Head, b. Jackson, 0; S. Wright, c. L. Lockyer, b. Jackson, 1; W. Newhall, c. Diver, b. Jackson, 2; W. Newhall, c. Diver, 2; W. Newha son, 5; Morgan, c. Jackson, b. Parr, 0; J. Wal-ker, b. Jackson, 2; W. Crossley, b. Parr, 0; W. Comery, (hit the wicket,) b. Parr, 0; R. Page, b. Jackson, 3; Harry Lillywhite, c. Carpenter, b. Jackson, 0; J. Barclay, (run out,) 0; Hallis, (run out,) byes 1; leg-byes 1, 2. Total 36. At about three o'clock the English eleven

went in, sending Hayward and Carpenter to the bat. After a long and steady play, Car-penter was caught out by Senior. Wisden took his place and was quickly disposed of for three. Parr succeeded him, and with Hayward remained at the bat, when the stumps were

At five o'clock the score stood as follows: T. Hayward, (not out.) 32; R. Carpenter, c. Senior, b. Hallia, 26; J. Wisden, (run out.) 3; G. Parr, (not out.) 5; Byes and Wides, 14; No. balls 2, 16. Total so far, 82.

The United States players manifested much nervousness during the larger portion of the day, but improving somewhat at the close.

A large number of ladies were present,

watching the play with much interest.

We understand that on Thursday a match will be commenced between six of the English players and five Americans, and the other five also with five Americans.

Washington, October 3.
Although the bids for the army transportation have been opened, it is understood that no contracts will be made for some days.

The Department will especially take care that the troops in Utah shall be promptly

supplied.

It was stated in the advertisement inviting proposals that the right would be reserved of rejecting any or all the bids which might be offered, and this, it is presumed, was in view of the fact that some might be so low as not to insure a compliance with the public demands.

The new Commissioner of the Land Office, an ex-member of Congress from Tennessee, will

The President will leave Washington tomorrow or Wednesday for Wheatland, for a

Washington Correspondence.

NEW YORK, October 3. The Herald's Washington correspondent says: "Bids for the transportation of supplies to the army in Utah and New Mexico were opened at the War Department on Saturday The Secretary of War being absent, the President deemed it of sufficient importance to go to the Department and have the bids opened and registered before him. This unexpected step on the part of the President created some surprise. It appears the old contractors, Mesars. Majors, Russell & Co. will not obtain any one of the three contracts, other bids being lower. It is understood that the bid of A. C. Irving & Co. will take the Utah contract at \$1 34 per pound per one hundred miles. The old contract was \$1 80. It is is said the bids of Messrs. Childs & Scott will take the two contracts for New Mexico. The magnitude of these contracts may be judged from the fact that the amount of the Utah contract the first vear was over \$20,000,000.

Orders have been sent from the Navy Department for the return of the United States steamer Wabash, the flag-ship of the Mediterranean squadron. The flag-officer will turn over the command of the squadron to Captain Leoy, now in command of the Macedonian.

The building stood five hundred feet front by one hundred and fifty feet deep, with a cellar thirty feet deep. Arrangements had just been completed for manufacturing five hundred barrels of beer daily. An immense quantity of barley was in the building, and is still hunning.

Opening of the Nicaragua Transit.

NEW YORK, October 3. It is announced that the steamer St. Louis will depart from this port for San Juan del Norte with the United States mail on Wednesday next. She is to connect with the steamer Pacific, and, it is stated, that arrangements have been made for an extra steamer to call at San Juan del Sur to transport the mails and

passengers to San Francisco, in case of the non-arrival of the Pacific.
